Career Objective

Analytical and driven Computer Science graduate (ICB program) with strong skills in programming (C, Python) and web technologies. Known for problem-solving and attention to detail, aiming to contribute to innovative software projects and thrive in a collaborative environment..

Education

Alva's Institute of Engineering and Technology

B.E- Computer Science and Engineering (ICB)

2023–Pursuing

CGPA:8.33

Govt. PU College Venur,Belthangady

Pre-University Education

2020 – 2022

Percentage: 87.6%

Adarsh High School Taccode

SSLC

2020

Percentage: 87.2%

Technical Skills

Programming Languages: C, Python, HTML

Soft Skills: Time management

Projects

Workout buddy

2025

- Developed a fitness guidance application designed to help users plan, track, and manage workout routines effectively.
- Implemented features to guide users through exercises, monitor progress, and provide structured workout schedules for consistency.

Sign Language Translator

2025

- Developed an application to translate sign language gestures into text/speech, improving accessibility for communication between hearing-impaired and non-sign language users. Implemented data preprocessing and model evaluation, and built a simple interface for real-time score prediction.
- Implemented gesture recognition and mapping features to ensure accurate, real-time translation and user-friendly interaction.

Achievements & Certifications

- NPTEL – Joy of computing using python
- Cybersecurity MOOC course by CYSECK
- Computer Vision – Coursera

Languages

- Kannada
- English
- Tulu

Hobbies

- Reading books
- Singing
